Official Paper of the City.

*Forever float that standard sheet!
Where breathes the foe but falls before us?
With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us!*

Stand by the Flag.

The people of the United States are now engaged in putting down a rebellion, which threatens to overthrow the government, the laws and the constitution. That is the declared object of the traitors. That there is no mistake about this, we need only refer to the facts that the rebels have put forth another constitution, enacted laws in violation of federal authority, and have unfurled another flag, under which they have assembled an army, for the purpose, as they openly proclaim, of taking Washington and deposing the government which the people have lawfully elected and inaugurated.

The loyal people of the country see this plainly, and with a unanimity unparalleled in the history of mankind, they have united to put it down. They have discarded all differences of opinion in politics and religion, and have patriotically rallied around the old flag, to sustain the constitution and the laws. It is a manifestation of military spirit and devoted patriotism, of which we are all proud, and which we hope to see continued to the end of the war.

Although the administration was elected by the republican party, as soon as the first gun was fired upon Fort Sumter, it ceased to represent solely the republican party. The removal of democrats from office merely because they were democrats, ceased—The appointments afterwards made, were from both parties. Whenever a loyal man was found, supposed to be fit for the position to be occupied, he was chosen, without reference to past political opinions. This action of the administration meets our approval, as it does the republicans generally. That it was done in good faith, none knew better than the lamented Douglas; and no man gave the administration of Mr. Lincoln, so far as the war was concerned, a more hearty support,—as his dying words testify.

We are glad to see this spirit animating his friends since his decease. We have noticed, with an inconsiderable exception or two, no swerving on their part from the noble course which he so promptly and firmly recommended. We have been particularly pleased with the position taken by the Chicago Times, under its new management. It discusses the questions relating to the war with a manly spirit, and treats the administration with a fairness and justice, not always found in the columns of republican papers. It is a model for all democrats to follow.

This is the spirit which should animate us all at this time. While the life of the nation is threatened there must be union among us, if we would save our government from destruction. Mere party politics are buried out of sight. What were the causes of this war, or who is responsible for it, whether any political organization at the north is to be blamed—let history, in after times, decide. But let us remember, who are in the midst of the struggle; that it is no time to talk of old party issues, but that our sole and only object is to put down the rebellion. This cannot be done by discussing slavery, tariffs, or national banks, but by the firm determination of every loyal American to give his whole thought and mind, and, if need be, his fortune and his life, to sustain the old flag of the Union.—Let us STAND BY THE STARS AND STRIPES, and let that be our entire political creed and our whole gospel, until the causeless and wicked rebellion, which now afflicts the land, shall be crushed, and the God-forsaken leaders of it hung.

The results which are to follow this war, in shaping the political or moral destinies of this republic, no man can foresee. It is useless to speculate about it in the midst of booming cannon and the rush of combat; but we may be permitted to hope that out of it will come enlarged ideas of freedom, a purer patriotism and a higher civilization.

THE STATE LOAN.—The Milwaukee Sentinel says that the capitalists of New York say that our state loan cannot be legally taken at less than par, and therefore substantially, it cannot be taken at all without the aid of another session of the legislature!

Gov. Randall writes to the Milwaukee papers that he is informed that charges have been made that Mr. Holton and others had charged more to the state than they have paid for articles furnished the volunteers. He desires to be informed whether it is true, and he will have it fully investigated.

In due time Jeff. Davis and other insurgents will learn by sad experience that there is human as well as spiritual affairs a certain retribution—that

"The miles of the Gods grind slow,
But they grind exceedingly small."

We learn from Detroit that fugitive slaves coming up through Pennsylvania and Ohio, from Virginia, are crossing the Detroit river into Canada by scores, and many others are hiring out to Pennsylvania and Ohio farmers, for the coming harvest work.

From Washington.

Our Washington correspondent A. G. writes to a friend in this city as follows, under date of June 10:

I have not written to you for several days because I wanted to wait till I could at least give a guess something like satisfactory to myself, as to military movements, which have been preparing for three or four days past. Yesterday was Sunday and all through the city, all day, it seemed more like a "fourth of July" than anything else—today—Monday seems as quiet as an old fashioned New England "Sabbath day!" I attended the Sunday evening parade of the New Hampshire first regiment at 7 o'clock P. M., yesterday. In conversation with Col. Tappan I learned that an order would be issued for a forward march in the morning, in what direction was not at liberty to say. The officers and men seemed elated at the prospect of moving. After the parade and inspection of the regiment they formed in hollow square for prayer. The chaplain gave them a stirring and patriotic exhortation, apprising them of the approaching expedition, recommending a firm reliance upon the "God of Battles," not forgetting the importance of "dry powder!" The regimental orders for the next morning were: Reville at half-past 3 o'clock, breakfast at 4, regimental parade at 5 o'clock, with two days' rations of hard bread and bacon, and line of march taken up at 6 o'clock. I have no doubt that this was substantially the order of some twelve or fifteen regiments encamped in the city, in coming to the navy department this morning at 9 o'clock, I passed the head quarters of six different regiments, all of them evacuated. Where they have gone is all a matter of speculation. Some say, Harper's Ferry—others, Massassas Junction. My opinion is, part of both—at any rate their movement from this city was in both of these directions. Perhaps you will know more about it before you receive this than I do now. At any rate it is the general expectation that "something is going to turn up!"

NEW YORK STATE NORMAL SCHOOL.

This institution is located at Albany, and was established by an act of legislature, in 1844, its object being the education of teachers for the schools of the state. It was first established for five years as an experiment, at the expiration of which time, an act was passed permanently establishing the school and providing for the erection of a large and commodious building for its accommodation.

Each county in the state is entitled to send to the school a number of pupils (either male or female) equal to twice the number of members of the assembly in such county. The pupils are appointed by the assembly district school commissioners, at a meeting called by the state superintendent of public instruction, on the first Mondays of February and September in each year.

All the pupils, on entering the school, are required to sign the following declaration:

"We, the subscribers, hereby declare that it is our intention to devote ourselves to the business of teaching the schools of the state, and that our sole object in resorting to this normal school is the better to prepare ourselves for this important duty."

The report of the executive committee, transmitted to the legislature, January 11, 1861, shows that from the organization of the school to September last, 3,450 pupils have been in attendance for a longer or shorter time. Of this number, 1,193—534 males and 656 females—have completed the course of study and have received the diploma of the institution. The whole number in attendance during the year ending with the date of the report was 331.

This institution is in a very prosperous condition, and it is believed that it has been the means of greatly improving the condition of the schools throughout the state.

The Louisville Journal, after detailing the military preparations made by the rebels in Tennessee, remarks:

In the meanwhile, Tennessee, having made all these formidable preparations for whatever may ensue, has commenced seizing Kentucky boats and cargoes upon the Mississippi river. Twenty or thirty Louisi-ville steamboats, bound up from New Orleans, have been seized at Memphis by order of General Pillow. Every one that comes to that point is seized. If any boat attempts to pass she is brought to by heavy batteries, and compelled to remain. Our state can no longer send a boat down the Mississippi and expect her return. Our commerce upon that mighty thoroughfare is annihilated.

THE FUTURE OF THE UNITED STATES.—The North British Review for May thus closes an article on American affairs:

"There surely cannot be a permanent retrogression and decay in a nation planted in the noblest principles of right and liberty, and combining, in marvelously adjusted proportions, the vigorous and energetic elements of the world's master races, in the midst of which the tone is given and the march led by one of them which has never faltered in its onward course, and which is possessed of such tenacity and versatility, that is everywhere successful. The present calmness and confusion probably from the cruel fires in which the Union is to be purified, trade white, and tried, in order that she may take her destined place in the van of the world's progress in Christianity and civilization, fulfilling in the resistless march of her dominant Anglo Saxon race across the American continent, one grand part of the Divine scheme for the spread of that Gospel which shall survive all changes, overthrow all evils, and achieve its mightiest triumphs in the latter days of our world's history."

THE NATIONAL HYMN.—The committee on the National Hymn have received about three hundred manuscripts, only very few of which consist of both words and music. The indications are that this number will be increased at the rate of fifteen or twenty a day until the 20th of the month. We understand that the committee have not yet met to pass judgment upon any of the manuscripts.—*New York World.*

We learn from Detroit that fugitive slaves coming up through Pennsylvania and Ohio, from Virginia, are crossing the Detroit river into Canada by scores, and many others are hiring out to farmers, for the coming harvest work.

The steamer Persia, which sailed from New York for Europe, on Wednesday, took out a large number of southerners, with their families, all of whom were doubtless glad to leave the scene of approaching danger.

WASHINGTON.—Hon. Anson Burlingame has been appointed minister to China in consequence of the refusal of Austria to receive him.

Special to Post-C. Col. Parker, of Boston, and Col. Reid, of Schenectady, New York,

have been fully authorized by the war department to raise a regiment of mounted riflemen for service of the government.

A detachment of the 5th Pennsylvania

regiment captured a wealthy planter, named Wm. Holton, a member of the rebel cavalry.

He was taken to Alexandria.

The National Intelligencer states that

the government will soon pay all troops, including the three months as well as three

years volunteers.

A clergyman who has arrived here from

Massassas Junction expresses an opinion of

the intention of making a demonstration

against the federal troops in connection

with Johnston, who commands at Harper's

Ferry. The 10 new regiments will consist

of 2,300 men each.

The news of the evacuation of Harper's

Ferry created considerable excitement here.

The government has received despatches

announcing the fact.

PHILADELPHIA.—The Tribune says that partisans of the late expedition, communicated to rebels in traitors in camp have been arrested in transitu.

The Post's dispatch says Gen. Scott has

received confirmation of the evacuation of

Harper's Ferry. The rebels have gone to

Leesburg, Winchester and Strasburg, and thence to central Massassas.

WASHINGTON.—Col. Forney will deliver an oration on Judge Douglas on the 3d of July.

Sheppartown bridge was burned last

night, and the confederate pickets have

been withdrawn from all points twenty

miles above and below Williamsport. The

secession camp at Haynesville, four miles

from Old Point Comfort and Hampton Roads had also arrived.

HERKIMER, N.Y.—Gen. McClellan, accompanied by

Gen. Prentiss, Col. Wagner, Lieut. Osborn

and others, made a review of all the compa-

nies in the vicinity. He expresses himself

highly pleased with the appearance of the

men and their quarters. He left on

the special train at 2 o'clock this afternoon

for Springfield.

NEW YORK.—Capt. Kelly's guard of 100 men were the only soldiers in Jefferson City up to one

o'clock yesterday.

There are no troops at the Osage bridge or Dodge Island.

ST. LOUIS.—Seven more companies of troops and a battery of six guns went out on the Pacific railroad last night.

The steamer A. D. January was bought

yesterday by the government.

LOUISVILLE.—The steamer White Cloud was loading at the pier yesterday with cannon and military stores. It was said that Gov. Jackson and all the state officers were to embark on her for Arrow Rock, a strong point about sixty miles above on the Missouri river.

Capt. Kelly's guard of 100 men were the only soldiers in Jefferson City up to one

MESSRS. EDWARDS:—As a convenience in making change, I was induced to put in circulation a small amount of due-bills, not amounting at any one time to more than \$10; but not wishing to offend, violate any law, or set a bad example, I would say that if any one holds my due-bills I am ready to redeem them, and that no more will be issued by me.

A. H. CALENS.

Janesville, June 15, 1861.

HARMONY HOME GUARDS.—The following are the officers of this company:

J. N. Deans, captain.

J. D. Crosby 1st lieutenant, D. E. Stevens 2d lieutenant.

Sergeants.—James H. Boyd 1st, Burton Bart 2d, James Sherwood 3d, J. S. Miller 4th.

Corporals.—James Mansur 1st, Wm. H. Leake 2d, W. N. Maxon 3d, L. E. Crosby 4th.

The Guards are under the instruction of Col. White, of this city, an experienced and competent officer, and the company have made a creditable proficiency in military knowledge and discipline.

RELIGIOUS.—A sermon commemorative of the life and death of Mr. Samuel W. Lee will be preached in the Congregational church during the hour of morning service to-morrow.

BELOIT ITEMS.—We learn from the Beloit Journal & Courier that Mr. Porter, residing four miles east of the city, while rambling in the woods on Sunday, the 2d inst., near the farm of Mr. Gates and some twelve rods from the main road, found concealed in a cluster of bushes and by the side of a large stump, a child having been deprived a few weeks since. It turns out that Capt. Leach is loyal and that the steamer Calhoun is quite another affair. So much for a rumor.

Some of the cotton mills at Modest, Conn., are running night and day, in order to supply the great demand for tent cloth.

A man named Fister and another named Persfield were recently hung in Randolph county, Arkansas, for attempting to kidnap his master, his name being stricken from the rolls. It was also voted that the portrait of Commander Maury be reversed, and that the picture be hung in the society's room with the head downward.

The rumor that Capt. Leach of the steamboat W. H. Webb of New Orleans, had altered the name of the boat to Calhoun and taken out a private's license, so worked on his mother at Chelsea, that she was temporarily insane, and committed suicide a few weeks since. It turns out that Capt. Leach is loyal and that the steamer Calhoun is quite another affair. So much for a rumor.

The Beloit Star Rifles is quite full, and ready to answer a call whenever it shall be made. It will be a splendid company when fully organized; and great credit is due its officers for their energy in completing its organization.

REMEDY FOR THE STRIPED BUG.—The Beloit Journal says that water in which potatoes have been boiled is a remedy against the ravages of the striped bug. Easily tried, even if it amounts to nothing.

ICE CREAM AND FRUITS.—Charles Jones has opened an ice cream and fruit saloon in the building first door north of the American. The appearances give good indications of a neat and orderly place of resort.

BOCK BEER.—This beverage can be found Monday at Fritz's Metropolitan Saloon.

"AN OPERATIVE."—A day or two since several of our merchants were visited by an "operator" out of the usual line of customers. He gave his name as Daniel Hill, made very liberal selections of various articles of goods, a portion of which he had packed and sent out to be boxed to other places, where he was buying, and the balance he was to call for, and then pay for the whole. He, however, forgot to call for those he left in the several stores he visited, and was last heard of at Beloit, where he spent the night succeeding his purchases here. He is described as a gentle looking man about 5 feet 8 inches in height, and wore a black bombazine frock coat.

ANOTHER OF THE "SAME SORT."—To-day has been like yesterday, only a little more so. A good promise of rain last night gave out without accomplishing anything, and the wind and dust have commenced a renewed jubilee. Both "went it" strong. Every kind of liberty was taken with persons and property. No city ordinance or state statute could be enforced against the offender, and the "freedom" of the city was usurped without a vote of the common council.

MILTON ACADEMY.—We learn that the anniversary exercises of Milton Academy will be held in the afternoon of Tuesday the 2d of July,—instead of the 4th, as previously appointed.

Select School.

We are authorized to say that Mr. Case's select school will commence on Monday next, and all the pupils are desired to be present the first day if possible. School to be held in the first ward building.

ALL SORTS OF PARAGRAPHS.

Frank Brownell visited Mechanicsville, N. Y., (the home of Col. Ellsworth's parents,) on a special mission from the President, on Saturday the 10th instant. Said Piersons came up missing on the 10th day of June, and just before said company was sworn into service. Said Piersons is about 5 feet 10 inches high, round shouldered, slightly developed about the center, bald headed with some brown hair, and not very prominent behind the ears; a little inclined to be loquacious. When last seen he wore a cap, brown linen coat and pants, and a white shirt furnished him by the company. Said Piersons has faced sumptuously for the past four weeks at the expense of the state. Nothing more than the above reward will be paid. Dated June 16th, 1861.

Five Cents Reward.

The above reward will be paid to any individual who will produce the body or boots of one Thomas H. Piersons, who has either strayed or been stolen from the headquarters of the Janesville Light Guard. Said Piersons came up missing on the 10th day of June, and just before said company was sworn into service. Said Piersons is about 5 feet 10 inches high, round shouldered, slightly developed about the center, bald headed with some brown hair, and not very prominent behind the ears; a little inclined to be loquacious. JAS. MILLIS, Ensign.

In London, judgment has been pronounced against Kossoff, in the matter of the large quantity of notes which had been lithographed for revolutionary purposes in Hungary, and a day for their wholesale destruction is to be appointed.

Dr. H. Strother, the "Porte Crayon" of Harper's Magazine, is a quarter-master in the rebel camp at Harper's Ferry. A few weeks since he married Miss Hunter of Charleston, one of the veritable "cousins" who played so conspicuously a part in his "Virginia Illustrated."

The sugar crop of Louisiana is said to be promising. Corn, wheat, rye and oats also give prospect of an abundant harvest.

The prospects for a good wheat crop in Ohio are encouraging. The cold, wet spring has retarded its growth very much, but it is now coming on fast—has a good healthy appearance, stands well on the ground, and if no unforeseen calamity befalls it, we may expect an abundant harvest.

We learn from the Frankfort Commonwealth that the aggregate vote for delegates to the Border State Convention was 107,334. There were no returns from the counties of Ballard, Hickman, Marshall, Simpson and Woodford. The total vote of Kentucky at the last presidential election was 146,216. Notwithstanding no Union votes were counted from five counties, and that many precincts were not opened, the Union majority is 69,452.

It is a singular coincidence that Thursday the 13th inst., which was to be observed as a day of fasting and prayer in the rebel states, was the anniversary of the birth-day of Gen. Scott. The same day, therefore, might very properly have been observed in the loyal states as a day of thanksgiving and praise. Gen. Scott was born in 1786.

NOTICE TO THE PUBLIC.

\$200,000 STATE LOAN.

NOTICE is hereby given that \$100,000 in bonds of the State of Wisconsin for \$200,000 authorized by the Legislature of the State, will be offered for sale in the office of the State Treasurer, at Madison. The law authorizing their issue, requires that they shall not be payable at least at par value. It is desirable that these bonds be sold at par, and that they be authorized at the Extra Session of the Legislature just now in session.

Insurance against loss or damage by fire, on Dwellings, Factories, Stores, Warehouses, Merchandise, Mills, Manufactures, and most other kinds of property, can be effected in this company upon as favorable terms as are now in existence, and on reasonable terms, as far as the risks and security of policy-holders will admit.

The above is the oldest company doing business in this state, and in its peculiar property it has been demonstrated that it is safe and judiciously conducted. Insured, it refers to a solid million of assets well invested; and if anything were needed to command it to the public for liberal patronage, we might offer its history of success and the honorable dealing of its agents, as a guarantee for half a century, as ample sufficient for its purpose.

DWELLINGS AND CONTENTS,

The bold service long and successfully tried, and the many advantages the Atna Insurance Company presents in this line, should not be overlooked by those ready to insure and underwrite.

It is often a question of the necessity for reliable Insurance to become an imperative duty—the ability of property holders to sustain loss being then much lessened.

THE above are First Class, justly popular, and promptly paying companies. They invite investigation into their condition and solicit business entirely upon their merits, and are willing to give the best possible and honorable dealing, they have but few equals, and no superiors. They are founded upon the very best securities in the world—first class bonds and mortgaged upon prime real estate, and are well known to be safe. They are not, for the past few years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable to be affected by the experience of the past tenches to become almost, if not entirely, valueless. And while there are Companies entered by the field of competition, all of whom are in a position to furnish similar information and statements of their condition, and without a cash surplus on hand sufficient to reinforce their outstanding risks, the above-named companies always have and keep up a large amount of cash on hand, and in some instances four times, need for the reimbursement of all their risks. With such a foundation, and with such a condition, any man ought to look with confidence to the future for a liberal return.

Policyholders without delay, and firms risks for a series of years taken at less rates than can be done by Mutual Companies, and a certainty given instead of an uncertainty. All losses promptly adjusted and paid.
